The in-

The Paris war office tonight announced successful local operations on the left bank of the Gise, where the French are driving toward Guise.

About twenty-five men attended the conference yesterday afternoon at 1 o'clock at the Business Men's club, although invitations had been extended to more than 100. Members of the local committee de-clared that it was apparently impossible to obtain even an ordinary ences between business men and bankers. However, slightly more than \$150,000 in additional subscriptions was obtained at this

meeting. Invitations have been extended to about 100 other men to attend a similar meeting at 1 o'clock this afternoon at the Business Men's club and the committee is in hopes that the attendance will be better. The loan drive is rapidly drawing close, it was pointed out, and Richmond yet has a considerable lagging, bankers declared last
